General Purpose

Symbol CS1504 General Purpose Bar Code Laser Scanner
The CS1504 bar code scanner has compact, go-anywhere design that allows it to fit into a purse or onto a keychain. This "shopping buddy" can scan bar codes from print ads, catalogs or merchandise and then make purchases or shopping lists that can be viewed online.
Using the device is simple: just point, click and scan. It captures and stores up to 150 codes and can be used to shop from a web kiosk or to send items or inquiries. These features make this device ideal for gift registry applications and preferred customer incentives.

General Purpose

Symbol DS6707 & DS6708 General Purpose Bar Code Imager Scanner
The DS6700 general purpose bar code scanner combines the functionality of a bar code scanner, digital camera and document scanner in a single, cost-effective device. From point-and-shoot simplicity to accurate bar code scanning to capturing full-size documents, this device is the right tool for the job. Text enhancement technology makes the scanner able to handle even the finest-grain text. Omni-directional scanning and a wide working range means that even novice users can begin scanning with minimal training.

Standard DS6707 with attached presentation stand.

General Purpose

Symbol DS6707-DP Handheld DPM Digital Imager Scanner
The Symbol DS6707-DP is a premier general purpose scanner, offering the maximum in data capture flexibility. The Symbol DS6707-DP is able to capture images and read virtually all 1D and 2D bar codes and direct part marks (DPM) — including the most challenging mark, dot peen. This highly versatile device is ideal in industries that depend on a wide variety of data types, such as healthcare, aerospace and automotive. With the DS6707-DP, workers can capture the right information at the right time, driving inefficiencies and errors out of business processes — improving accuracy as well as employee productivity.

General Purpose

Symbol DS6708-DL General Purpose Handheld Bar Code Imager Scanner
The DS6708-DL combines all the features of Motorola's standard DS6708 imager, such as omni-directional 1D/2D bar code scanning, with embedded and server-based parsing agents that enable users to read the PDF-417 bar code on a US driver's license and use that information for a multitude of applications. Because the parsing is done in the scanner and the output is controlled by the user, the scanner can easily be used in all environments with very little start-up effort.

General Purpose

Symbol DS9808 Hybrid Presentation Imager Scanner
Achieve a new level of productivity and throughput at the checkout stand — with the DS9808.
Designed to deliver a new level of versatility, functionality and performance, the DS9808
features a one-of-a-kind hybrid form factor that provides superior comfort and ease of use in
both handheld and hands-free scanning modes. Inside, it offers the latest scanning
technology, delivering record swipe speeds for 1D and 2D bar codes, as well as the ability to
capture images and signatures. Available in standard and long range models, the hands-free
decode range on both can be adjusted to meet your needs, for example, to match EAS
deactivation range or prevent inadvertent scanning of items nearby.

General Purpose

Symbol LS1203 General Purpose Bar Code Laser Scanner

This bi-directional LS1203 handheld scanner handles all 1D bar codes and is ideal for small retailers. It delivers the functionality, features and reliability needed to improve operational efficiencies from the check-out line to the storeroom. It minimizes manual keying — ensuring accuracy in all customer transactions — and it automates paper-based inventory processes. The device easily integrates multiple interfaces to help ensure connectivity to a host and PC system.

20-73951-07R

   Twilight Black, hands free gooseneck stand for the LS1203

General Purpose

Symbol LS1203-HD General Purpose Bar Code Laser Scanner
The LS1203-HD handheld scanner is designed for electronics manufacturers who need to scan small, high density 1D bar codes on PCB assemblies for track, trace, quality and other applications. It delivers the functionality, features and reliability needed to increase operational efficiencies right out of the box. Single board construction and a durable scan element significantly reduce downtime and repair costs, and multiple interfaces help ensure connectivity to your system today and tomorrow.

20-73951-07R

General Purpose

Symbol LS4208 General Purpose Bar Code Laser Scanner
The Symbol LS4208 handheld laser scanner delivers exceptional performance in an accessible, intuitive package. Its single-circuit board design ensures sturdiness and an ergonomic shape maximizes user comfort. Continuous one-pass scanning, an innovative multi-line rastering scan pattern, a wide working range and superior motion tolerance make data capture easy, even for novices.
This scanner comes in two models: the LS4208-SR, which handles all 1D bar codes, and the LS4208-PR, which can also capture PDF417, microPDF and composite symbologies.

General Purpose

Symbol LS7708 General Purpose Presentation Laser Scanner
The LS7708 scanner provides quick, accurate scanning, helping users save both time and money. Ideal for presentation and swipe scanning, the device combines the ease of hands-free with the versatility of handheld scanning. Its intuitive design, large scanning window and flexible operation can make check-out faster and more efficient, freeing up employees to focus on customer service. Designed to stand up to the toughest and busiest environments, is scanner is a cost-effective solution for medium- to high-volume retailers.

No Available Accessories

General Purpose

Symbol LS7808 General Purpose Bar Code Laser Scanner
With superb first-pass scan read rates from any angle, the LS7808 is an in-counter scanner designed to give retailers a faster check-out process and an uncluttered countertop appearance. Integrated Electronic Article Surveillance (EAS) connectivity enables cashiers to simultaneously capture the bar code and deactivate the EAS tag. Omni-directional scanning allows data capture regardless of how the scanned object is positioned. The scratchproof sapphire glass/stainless steel option enhances data capture reliability in more demanding environments.

12-17206-02R

Stainless steel mounting bucket gives a smooth and sleek counter appearance. Designed for the LS7808 In-Counter Slot Scanner.

General Purpose

Symbol LS9203i General Purpose Bar Code Laser Scanner
The Symbol LS9203 omni-directional bar code scanner is ideal for small retail operations and institutional organizations requiring dependable data entry. Users can choose between choice of hands-free or handheld operation.
The scanner's ease of deployment and durability help to lower the total cost of ownership. The device easily integrates with your existing POS solution to offer detailed and timely sales information, giving you insights into customer behavior. The small, sleek design suits environments where counter space is at a premium.

20-71020-01R

LS9203 Stand, Beyond Twilight Black

General Purpose

Symbol LS9208i General Purpose Bar Code Laser Scanner
The LS9208 high-speed bar code scanner saves time and delivers versatility, switching easily between handheld and hands-free operation. The 100-line rastering omni-directional scan pattern lets you quickly capture codes no matter how they are presented. Its small footprint and integrated Checkpoint Electronic Article Surveillance (EAS) antenna save counter space. To ensure compatibility with new standards, the device supports the GS1 DataBar symbology and 14-digit Global Trade Item Number (GTIN) bar codes.

  This Twilight Black adjustable multi-mount stand gives the LS9208 bar code scanner flexibility at the point of sale.

Rugged

Symbol DS3400 Series of Rugged Bar Code Imager Scanners
The Symbol DS3400 Series of rugged scanners brings high performance data capture to harsh industrial environments. Using digital imaging technology, this family of scanners quickly and accurately captures 1D and 2D bar codes, images and direct part marks, and is available in a number of models to meet diverse needs:
• DS3408-SF, for 1D/2D bar code scanning
• DS3407-SF, for 1D/2D bar code scanning as well as image capture and transfer
• DS3408-HD, for 1D/2D bar code scanning and optimized to capture very small, high density 2D bar codes
• DS3407-DP, for 1D/2D bar code scanning; image capture and transfer; direct part marks (DPM)
All scanners in this series offer omni-directional scanning and a rugged design sealed to IP65 standards, ensuring reliability in harsh environments.

11-35035-01R

Workers can conveniently and quickly store their cordless bar code scanners in a durable belt holster.

11-66553-06R

This wall mount stand offers easy access and convenience.

50-15400-031

This retractable cable is attached to a pulley system to keep your bar code scanner out of the way, but within easy reach.

Rugged

Symbol DS3478 Series of Rugged Bar Code Imager Scanners

The Symbol DS3478 Series of cordless, rugged scanners brings high performance data capture to harsh industrial environments. Using digital imaging technology, this family of scanners quickly and accurately captures 1D and 2D bar codes, images and direct part marks. Integrated Bluetooth provides cordless freedom, enabling employees to move freely throughout the work environment.

This diverse product line is available in three models to meet a wide range of needs:

• DS3478-SF, for 1D/2D bar code scanning

• DS3478-HD, for 1D/2D bar code scanning and optimized to capture very small, high density 2D bar

• DS3478-HD, for 1D/2D bar code scanning and optimized to capture very small, high density 2D bar codes

All scanners in this series offer omni-directional scanning and a rugged design sealed to IP65 standards, ensuring reliability in harsh environments.

Rugged

Symbol LS3008 Rugged Bar Code Laser Scanner
The Symbol LS3008 rugged handheld scanner has a lightweight ergonomic design for superior productivity in light industrial, healthcare and retail environments. Designed to deliver maximum reliability and uptime, the single-board construction eliminates multiple circuit boards and connecting ribbon cables — the most common point of failure in scanners. A multi-line rastering scan pattern eliminates the need for exact aim and positioning and a wide working range allows easy scanning. Liquid Polymer Scan Technology eliminates friction and wear, and superior motion tolerance reduces fatigue and increases productivity.

Fixed Mount

Symbol MiniScan MS12xx Fixed Mount Bar Code Laser Scanner
The Symbol MS12xx family of compact, durable, industrial fixed mount scanners are available in fuzzy (FZY) or wide-angle (WA) versions for maximum versatility.
The FZY modules features fuzzy logic technology for premium scanning on 1D bar codes, even those with poorly printed and low-contrast symbols. When used as a fixed mount scanner, the FZY modules are ideal for manufacturing, warehousing and shipping, conveyer belts, assembly lines, library systems and other applications needing reliable unattended scanning. The WA modules are ideal for OEM applications such as diagnostic equipment, medical instruments, kiosks, robotic equipment and lottery terminals.

KT-65578-01R

Adjustable mounting bracket allows the user the flexibility to adjust the positioning of the scanner. This is ideal for kiosk integration or other fixed mount applications.

Fixed Mount

Symbol MiniScan MS22xx Fixed Mount Bar Code Laser Scanner
The Symbol MiniScan MS22xx offers four scan patterns — including omni-directional — for rapid capture of bar codes and symbols. This versatility minimizes the need for precise positioning of linear 1D bar codes, allowing even novice users to effectively scan data. The "smart" raster pattern excels at reading 2D symbols, even those that are poorly printed or low-contrast. Ruggedly constructed, this device is ideal for such applications as kiosks, ATMs, assembly lines and point-of-sale devices.

20-60136-02R

Fixed Mount

Symbol MiniScan MS4400 Fixed Mount Bar Code Imager Scanner

Wherever a small footprint is required, the Symbol MS4400 delivers. One of the smallest CCD imaging products available today, this scanner excels at 1D and 2D bar code scanning, image capture and DPM reading. Attaining a new level of miniaturization, it can be used from the check-in kiosk to point-of-sale areas with limited counter space — or even integrated within clinical diagnostic equipment.

Built-in omni-directional capture and intuitive aiming ensures fast, accurate scanning, regardless of who is operating the device — your employees or your customers.

20-60136-02R

The stand is placed or mounted on a desk or countertop to make hands free scanning easy and convenient.

25-04950-01R

External push button trigger and cable (must use with trigger jack cable).

25-13176-01R

Photo sensor trigger and cable (must use with trigger jack cable).

KT-65578-01R

Adjustable mounting bracket allows the user the flexibility to adjust the positioning of the scanner. This is ideal for kiosk integration or other fixed mount applications.

Fixed Mount

Symbol MiniScan MS954 Fixed Mount Bar Code Laser Scanner
As one of the smallest, lightest and brightest fixed-mount scanners available today, the Symbol MS954 is ideal for OEM device designs with space constraints, such as kiosks and ATMs, clinical diagnostic equipment, medical instruments, gaming devices and turnstiles/access control.
The device offers a configurable scan angle of 47° and 35°. The built-in RS-232 interface provides linear scanning on all types of 1D bar codes, including poorly printed and low-contrast symbols.

Micro Kiosk

MK4000 Laser/Imager Micro Kiosk
Deliver the ultimate in differentiated self-service with Motorola's MK4000. This powerful micro kiosk combines Motorola's world-renowned bar code scanning technology, a large 12.1 inch SVGA touchscreen, high speed processor and robust memory architecture to enable delivery of a wide range of information and services in a multitude of industries. With a cost-effective connection to back-end systems and three USB ports for customization, this versatile device provides the features required to take self-service to the next level. And, support for value-added promotional and workforce management applications — such as task management and training — helps ensure a rapid return on investment.

Micro Kiosk

MK500 Laser/Imager Micro Kiosk

Improve customer service and the customer experience with the latest innovation in self-service technology, Motorola's MK500 Micro Kiosk. This compact, easy-to-install and affordable device allows retailers to put the power of self-service in every aisle or department. So, no matter where in the store your customers might be, help is never more than a few steps away.

Customers can check price and inventory, check the balance on a gift card, look up a loyalty point balance, determine the location of a product and call for assistance — all with the scan of a bar code or press of a button or touchpad. In addition, the MK500 easily connects to third-party small mobile printers.

VoIP-Enabled

CA50 VOIP-enabled Wireless Bar Code Laser Scanner
The compact, VoIP-enabled CA50 allows workers to achieve a new level of productivity through the cost-efficient delivery of voice, text messaging, wireless bar code scanning and basic data application support — all via wireless LAN.
The device facilitates management of these mobile workforces, resulting in increased productivity and more personalized customer service. Whether on the retail floor or in a hospital, the device instantly responds to management requests and customer needs.

21-102377-01

Lanyard Clip with Neck cord.
This accessory provides easy access to the CA50 and is comfortable to wear

BT08-CA5050EAB00

CA50 spare battery, single pack. 920 mAh Lithium ion battery for use with the CA50.

BT08-CA5050EAB00

CA50 spare battery, eight pack. 920 mAh Lithium ion battery for use with the CA50.

CHS5000-8000CR

CA50 8-slot terminal charging cradle (includes power supply).
This 8-slot terminal charging cradle is designed for the CA50 and includes power supply.

HCLN4013

Plastic belt clip for CA50.

KT-102375-01R

Wall Mounting Bracket for 8-slot terminal charger.
This handy bracket secures the 8-slot terminal charger for your CA50 on the wall for easy access.

SAC5000-8000CR

CA50 8-slot battery charging cradle (includes power supply). This 8-slot battery charging cradle is designed for the CA50 and includes power supply.
