# Asset Tracking

Powered by **IT Script Net**®

## Track activity of assets accurately

## Efficient and cost effective data collection and reporting

## Fully customizable to fit your business.

Asset Tracking is a complete software solution for tracking the location of items.
The software can be customized to suite your exact needs, including reports and integration with legacy applications.

Custom solutions for a fraction of a custom price.

### Key Features:
- Customize the data collection with built-in options
- Capture activity for the initial Receiving of the Asset, Moving of asset from one location to another, Retiring of an asset, and Physical counting.
- Track Unique ID, Model & Serial Number, Vendor, Cost, Purchase, Install & Warranty date, take picture, add note
- Batch or Wireless data collection
- Compatible with major manufacturers of mobile computers and printers
- Lock users into using only the data collection program
- Print item and location labels
- Import Items, Categories, Users and more

### Solution Pack includes:
