

Package Delivery CAMPUS

Campus is a complete stand-alone solution that tracks the movement of packages from receipt to delivery. As the solution is web-based packages can be tracked by anyone, anywhere, anytime. Track the internal delivery like the big boys do without the big boy cost.

Campus is used by colleges & universities, K-12, federal & state government, and medium to large companies. Any entity with a central package receiving that redistributes them can benefit from Campus.
