Zebra[®] LP 2824 Plus[™] & TLP 2824 Plus[™] printers

Two-inch (56mm) on-demand thermal printers for labels, receipts, tags and wristbands

Leading the way in versatile and affordable desktop printing

These space-saving, user-friendly printers bring new levels of performance to the Zebra Desktop family. The direct-thermal LP 2824 Plus or combined direct-thermal/thermal-transfer TLP 2824 Plus are perfect for patient identification, pharmacy labelling, retail product and shelf labelling or any other application where precise narrow output is required.

Superior performance at a small price

These elegant little printers from Zebra bring fast, professional labelling to your desk, small office, laboratory or anywhere you need to print small numbers of bar-code labels, receipts and tags. They are robust with a double-walled ABS casing and offer many "big printer" features at an extremely affordable price.

However, they are designed for ease of use, so even complete beginners will find them easy to set up and operate.

Zebra offers a wide range of supplies for LP/TLP 2824 Plus printers, all made to a high standard and suitable for a variety of applications.

- Manufactured exclusively for Zebra printers
- Laboratory-tested for optimum performance
- Proven to minimise wear and tear on printheads
