June 2013

SM-T301i

The SM-T301i three-inch rugged portable Bluetooth receipt printer is approved by Apple, Inc. through MFi certification for use with the iPod Touch®, iPhone® and iPad®. With an added magnetic stripe reader, the SM-T301i adds even more functionality and value to the already released SM-T300i model.

In addition to its ability to pair with iOS, Android and other popular mobile platforms, the SM-T301i has an integrated MSR, easy drop in & print paper loading, a reliable and quick print speed of 75mm per second, and an intuitive LCD display. Dust protected and splash-proof resistant (IP54 Certified), the SM-T301i is rugged enough for outside field workers requiring handhelds to seamlessly print from a mobile device to a durable portable printer. The SM-T301i also allows for restaurant servers and clerks working in demanding retail and hospitality environments to print standard three-inch format receipts wherever they need to. Its rugged and splash proof design combined with standard three-inch receipt printing, MSR and a long battery life make the SM-T301i a welcomed option.
