## THE NEW PRICE-PERFORMANCE LEADER

The new die-cast aluminum label printers from TSC are designed for your most demanding barcode and identification needs, without breaking your budget.

#### TTP-2410M

Never before have so many standard features been packed into a label printer at such an affordable price. The TTP-2410M boasts a print speed up to 12 inches per second. This is the fastest printer in the TSC lineup and also provides the fastest label throughput of any similar printer. By combining high speeds with the TTP-2410M series durable die-cast aluminum frame, the TTP-2410M is ideal for your mission critical printing applications, either on-demand or in batches.

TTP-2410M standard features include internal Ethernet, USB 2.0 and PS/2 keyboard interface.The electronics include 32MB SDRAM, 8 MB FLASH memory and a slot for an SD card so users can inexpensively add up to 4 GB of additional FLASH storage. The mechanism supports up to a 600 meter ribbon length and a full 8.2" OD media roll, with an optional peel-off kit include internal rewind, label peel & present sensor. All of this offered at an affordable price, and with a two year limited warranty.

#### **TTP-246M Plus Economy Models**

Built specifically for the budget–minded, the TTP-246M Plus barcode printer features the basic

requirements for most applications at an affordable price without skimping on quality. With an easy to understand 6 button display and proven side-load design, it's quick to learn, use, and load, so operators can focus on more productive tasks. The printer offers standard serial, parallel and USB connectivity, and optional internal Ethernet networking for simple integration.

#### 300 DPI Upgrade

Higher 300 dpi resolutions are available in either factory versions or as a field upgrade. The upgrade kit includes a new printhead with firmware and takes 30 minutes to install.

#### 600 DPI Option

Based on the same die-cast aluminum chassis, a version of 600 dpi resolutions is available as a factory option. The printer offers speed of up to 4 ips and a generous 32 MB SDRAM, 8 MB FLASH memory as well as a SD card slot.

#### POWERFUL TSPL-EZ<sup>™</sup> PRINTER PROGRAMMING LANGUAGE

TSC ships TSPL-EZ<sup>™</sup> firmware in all its printers. TSPL-EZ<sup>™</sup> supports three different printer languages including TSC printer language, TPLE (Translation Printer Language Eltron<sup>®</sup>), and TPLZ (Translation Printer Language Zebra<sup>®</sup>). TSPL-EZ<sup>™</sup> features internal scalable True Type fonts, and a BASIC interpreter with file manager for creating powerful printer interface applications with multiple type of hosts.

- The TTP-2410M platform is perfect for: •Industrial duty printing •Health care patient safety
- •Compliance labeling
- •Work in process
- •Order fulfillment
- •Order fulfillment
- Distribution
- •Shipping/receiving
- Ticketing
