

elo TOUCH SOLUTIONS

Elo @ The Office

Touch screen solutions for lobbies
and meeting rooms

You may already know Elo® based on seeing one of our touchscreens, touch computers, kiosks or commercial tablets in use at your favorite store, restaurant, or hotel. Did you know Elo Touch Solutions offers technology for your office? Our thin, bright and beautiful interactive digital signs are great way to enhance your lobby, guide visitors through your building, and improve collaboration in your meeting rooms.

The Elo Corporate Collaboration Solution

The Elo Corporate Collaboration Solution is compatible with your enterprise. The 70-inch touch screen with integrated Intel® Core i5 computer running Microsoft® Window® 7 allows any corporation to add their chosen collaboration tool to modernize corporate meeting rooms. Whether you use Skype®, GoToMeeting®, WebEx®, Google® Hangouts™, ReadyTalk™ or other collaboration tools, the Elo Corporate Collaboration Solution is compatible with the way you do business.

The big, bright and stylish 70-inch display sits less than 4-inches from the wall and requires only AC power and a network connection. Plus, corporations can use their own custom Windows disk image to ensure compatibility and make the Elo Corporate Collaboration Solution integrate easily into the corporate IT environment.

Use the Elo Corporate Collaboration Solution to enhance the effectiveness of your multi-location meetings.

The Elo Digital Whiteboard Solution

HITACHI
Inspire the Next

Find yourself taking pictures of the whiteboard after a meeting? Imagine combining the simplicity of a whiteboard with the touch interactive experience of a computer – without the need for a projector or a laptop! Elo Touch Solutions and Hitachi have teamed up to offer a feature-rich, all-in-one digital whiteboard that allows:

- Touchscreen whiteboard features
- Microsoft Office® integration
- Ability to connect multiple whiteboards in remote locations

Now you can capture all your notes and integrate your multimedia content into a single file. Create, deliver and manage high-impact digital content with your finger or a stylus. Annotate over applications, write notes in digital ink, then save your work to share with others. Access your cloud content, presentations, digital dashboards, or other back-office applications. The Elo Digital Whiteboard Solution is built on an Intel Core i5 computer running Windows.

The Elo Directory Solution

 **JIBESTREAM**

When visitors to your building or campus need to know how to find you – our interactive directory solution combines best-in-class hardware with a leading software platform to deploy interactive building directories quickly and easily. Elo and Jibestream have teamed up to offer a solution that helps companies and building managers realize operational savings, streamline processes, and enhance visitor experiences. Optional Jibestream plug-ins expand NovoTouch software functionality to further differentiate the user experience. Benefits include:

- Building directories without complex set-up/ graphic design
- Centralized listing management for multiple lobby locations to streamline operations
- Enhanced interactive listings and advertising content
- Optional plug-ins for energy management, news, weather and a host of custom features supported by Jibestream

The Elo Virtual Receptionist Solution

 **ALICE™**

With the power of ALICE™ Receptionist technology and the best-in-class hardware from Elo, you can now manage your front desk or lobby traffic without losing the personal touch of human customer service.

The Elo Virtual Receptionist Solution empowers a company's existing staff to greet visitors from the convenience of their own desk. Utilizing Elo's interactive touch screens, employees can communicate with visitors in face-to-face video or audio-only conversations. Key features include:

- Visitor greeting based on motion detection as they enter the office or building
- Employee alerts of visitor arrival
- Employee connection with visitors in two-way video or audio conversations from their desktop PC, desk phone or mobile device
