LC7100

Smart Computer for Retail and Hospitality Application

The LC7100 is a recent addition to Bematech's LC Series of Smart Computers. The unit is ideal for Point of Sale, Kitchen Controller and Digital Signage applications. It is equipped with the powerful Intel® Atom™ Dual-core Processor D2550 1.86 GHz. The unit is compact, light weight, and can easily be mounted on a wall using or under a countertop using a Bematech bracket. It is available to support a wide range of application needs with its variety of I/O ports. Bematech's LC Series of Smart Computers provides ideal computers to fit any customer's workspace and performance requirements. The LC7100 has a small form factor and is great for those with space limitations. Similar to other LC Series Computers, it is fanless and functions extremely well in harsh environments. Its solid black housing is perfect for when a discreet appearance is desired.
