

Introducing a new high-value, high-performance option in wireless scanning - the Unitech MS840 RF cordless scanner. Featuring plug-and-play functionality that is similar to a wireless mouse or keyboard, the MS840 communicates with a USB dongle and can transmit data from up to 33 feet away. The MS840 also features a buffer mode system which allows users to scan and store data outside of RF range. It is fully functional out of the box and can be paired and charged with or without the cradle.

- Value-priced RF wireless scanner
- Durable, ergonomic design
- Scans all major 1D and 2D symbologies
- Out-of-the-box functionality
