

PA96811

Rugged Secure Mobile Computer

Designed for Maximum Efficiency and Versatility

The Unitech PA968II mobile computer is a fully integrated, multi function platform that offers a high level of mobility and versatility. Featuring an ultra robust Aluminum-Magnesium alloy housing and ergonomically designed form factor, the PA968II boasts four fully integrated wireless technologies. The GPS system offers precise and accurate global readings wherever you may be around the world, making the PA968II an ideal choice for a wide range of applications in any transportation or field service-based enterprise.

Tough enough for even the most Adverse Environmental Conditions

The PA968II is not only designed for versatility, but also for durability. With its strong IP65-rated seal against water and dirt, and its 1.5m (5 feet) drop threshold to concrete, the PA968II can withstand significant abuse thereby minimizing downtime and repair costs. Ideally suited for harsh mobile environments, such as those found in Transportation, Field Service and Law Enforcement, the PA968II can withstand the effects of inclement weather and provide the functionality and reliability vital to the success of mission critical applications.

The Powerful and Seamlessly Integrated Wireless Platform

The PA968II utilizes state of the art technology in its seamless wireless connectivity. With robust networking capabilities, such as built in InstantFix™ GPS and an advanced 3.5G (including HSDPA) wireless communication platform, the PA968II is able to track / trace via satellite, and transmit collected data to a server in a very short time.

The Unique Benefit of a Cutting Edge Design

In today's ever-expanding market place where time, efficiency and accuracy are of the utmost importance, the utilization of state-of-the-art global communication technology provides substantial benefits to any mobility enterprise. The PA968II offers just that in its optional intelligent Modularized Keypads to meet customers' various needs for different applications. The swappable keypad option enables users to minimize downtime and is more convenient and cost-effective for any special keypad requests.

Main Features

- All New Lightweight Aluminum-Magnesium Alloys Design
- Optional Intelligent Modularized Keypads
- \bullet Sunlight Readable 3.5" VGA High Resolution Touch Screen with LED backlight
- Windows Mobile 6.5.3 Professional/Classic
- Built in GPS systems with InstantFix[™] supported for global access and positioning
- Supports 3.5 G wireless capabilities (including HSDPA)
- Supports 802.11b/g (CCX4 certified)
- Supports Bluetooth 2.1 + EDR
- Optional linear laser or 2D imager scanner
- IP65 rating drop tested at 1.5m (5 feet) off concrete floor
- Large battery capacity at 13.69 Watts to ensure long hours operating time
- Optional Gungrip models

Specifications

Operation System

Intel PXA320 806MHz Mobile DDR: 256MB Memory NaND Flash: 512MB

Windows Mobile 6.5.3 Professional/Classic OS

Display

480x640 VGA, Color LCD, with Touch Screen & backlight

Keypad

Modularized keypad 22-Key in default package,

43 keys keypad is optional (Numeric and alpha key)

Image Device

Camera 2.0M pixels Flash light 60 Lux (30cm)

Indicator

LEDs, Vibrator
