Heavy Duty Metal Construction

The *Pro* Series' rugged all-metal design makes these printers ideal for heavy-duty use in the harshest environments. The metal enclosure provides full protection of the print mechanism and media in any mission-critical application.

High Speed and Performance

The M84Pro uses the latest technology to provide maximum performance and eliminate wait time. The powerful RISC CPU delivers print speed of up to 10 inches (25.4 cm) per second, enabling you to generate the most complex label formats quickly and efficiently.

User Configurable Print Resolution

The *Pro* Series printers offer superior print quality at 203, 305, and 609 dpi. By simply changing the printhead, you can quickly convert the M84Pro to any of three available print resolutions.
